EXPERIENCE

Software Developer(Frontend)   Dec 2022 – May 2023
Ivory Technolab Private Limited   *Ahemdabad*
- Developed a robust invoice management application with responsive frontend (React.js, Redux, Material UI) and backend (Node.js, Express.js, MongoDB). Integrated RESTful APIs for seamless data retrieval and management.
- Collaborated with an agile team to ensure high performance, quality, and responsiveness of applications. Developed e-commerce, business analysis and invoice management applications.

Software Developer(Frontend)   Feb 2022 – Sep 2022
Thotnr Consulting   *Remote*
- Collaborated with a cross-functional team to deliver a high-quality project, meeting project milestones and exceeding client expectations in terms of performance, usability and overall user satisfaction.
- Developed banking application, e-commerce website, and contact page using HTML, CSS, JavaScript, React, Hooks, Redux, Thunk and API integration.

TECHNICAL SKILLS

Skills: React.js, Redux, Hooks, Routing, Formik, Material UI, TypeScript, Thunk, Saga, HTML, CSS, SCSS, styled components, Tailwind CSS, Bootstrap, JavaScript, Axios, JSON, Responsive Design, API Integration, Node.js, Express.js, MongoDB, Jira, Agile/Scrum Methodologies, Git, GitHub, Postman.

PROJECTS

Food Delivery App   July 2023 – July 2023
- **(Html, Css, JavaScript, React.js, Redux-Toolkit, Routing, API Integration)**
- Code Link : **GitHub**   Live : **Food Delivery App**
- Developed an intuitive UI/UX for FoodiePal food delivery app with Redux Toolkit, enabling seamless search, filter, and cart management, enhancing user convenience and order accuracy.
- Implemented a secure user authentication system through Redux, ensuring data privacy, seamless login/logout features, and industry best practices compliance.

YouTube Clone   July 2023 – July 2023
- **(Html, Tailwind Css, JavaScript, React.js, Redux, Caching, Debouncing, Routing, API polling)**
- Code Link : **GitHub**   Live : **YouTube Clone App**
- Developed app with video playback, search, comments, and live chat functionalities using API polling. Created an interactive user interface with optimized live chat performance and seamless API integration.
- Developed a high-quality clone with successful API integration, meeting milestones while ensuring code quality, scalability, and optimized performance through debouncing and caching techniques.

Camping Web App -   Nov 2021 – Jan 2022
- **(Html, Css, JavaScript, EJS, Node.JS, Express.JS, MongoDB, Mongoose, Restful API)**
- Code Link : **GitHub**   Live : **Camping Site**
- Developed a full-stack website with Restful routes for campground booking/locating and review system, including registration/login functionality. Utilized EJS templating engine for seamless rendering of dynamic content.
- Deployed the project on Render.com, utilizing Atlas cloud database service for MongoDB.

EDUCATION

Kanpur Institute Of Technology   Kanpur
Bachelor of Technology in Information Technology (CGPA - 8.1)   *Aug. 2018 – May 2022*

Jai Narayan Vidya Mandir Inter College   Kanpur
Class-12 with PCM(percentage - 85.00)   *March 2016 – March2017*

B.N.S.D. Shiksha Niketan Inter College   Kanpur
Class-10 (percentage - 87.00)   *March 2014 – March2015*
